

Hard Charging Greaves Hit Hard in Round 10 at Crandon

Crandon, WI (September 1, 2007) – Johnny Greaves' intentions for a weekend sweep at Crandon ended Saturday when Curt LeDuc slammed into the side of Greaves after Greaves had made a clean pass. The un-welcomed contact broke a rear stabilizer leaving Greaves with a lot of work to do on the truck if he wanted to run the rest of the weekend.

“It was pretty disappointing to tell the truth,” said Greaves. “I had the feeling that he was going to hit me in the turn after I passed him. It has happened that way a lot and today was no different.” Greaves was also give a black flag for “aggressive driving” in lap 2 when he jumped in the air with Alabama driver Ken Brasho. “I really don't know what happened, we just got together in the air and hit.”

“Even with the black flag, I felt like I was getting back in the race and I was on my way until the contact with LeDuc, Greaves stated. “I have a great crew and TRD here, so we will be ready.”

Greaves went on to limp in for 5th place and stay ahead in a tight points battle.
